

Lesson Plan

Title of Lesson: The ABC's of Math		Date: 11-09	Timeframe of Lesson: 6 days
Author(s): Laura Erke		School District: Campus: Lakewood School	
Subject Area(s): Mathematics		Grade Level(s)/Course: 8 th Grade/Algebra	
State Standards http://www.dpi.state.wi.us/dpi/standards/	Subject Specific: Mathematics A.8.4, A.8.5 <i>Technology Specific:</i> A.8.5, D.8.1, D.8.2 http://dpi.wi.gov/imt/itlstfst.html		
Stated Objective(s)	Students will work in groups to create a media project that will increase awareness of mathematical terms. Students will present a media project to their classmates.		
Procedures for Lesson	Day 1: Review basic PowerPoint procedures Day 2: Introduce project by viewing PowerPoint “The ABC’s of Mathematics” Day 3-5: Student groups work on project. Day 6: Student groups present projects to the class.		
Assessment or Evaluation	Student groups will be evaluated by the PowerPoint rubric attached.		
Enrichment	<ul style="list-style-type: none">• Students will have to option to create a game that involves the use of one of their terms.• Students will also have the option to present their project to the 7th grade math classes.• Students may choose to make a MovieMaker project instead of PPT, where they will video record themselves defining terms and showing examples.		
Materials	Computers, math text books, dictionaries		
	Technology Resources: 25 student computers with PowerPoint software; projector for presenting projects Other Resources:
